

Cancer Miasm

- Active
 - Generals
 - Particulars
- Latent

Latent Cancer Miasm

- Fastidiousness, exaggerated precision(Sycotic)
- FEARS – of cancer,disease, death. PROLONGED FEAR, UNHAPPINESS and despairs recovery.
- Anticipation -anguish eg late arrival of husband, child, failing exams (Ars, Carbo Veg, Gels, Lyc, Med, Plumb, Phos acid, Sil, Thuja)
- < Night, rest, alone. (syphillitic) > Company(psoric)
- Obstinacy (Tubercular)
- Enjoys watching a thunderstorm
- Strong Sense of rhythm, love of dancing and sensitivity to music which can make him weep(Sep)
- Sympathetic to others
- Sensitivity to reprimand (Sycotic)

Cancer miasm- Vijaykar

- Cancers due to genetic mutation are basically syphilitic miasm
- The Cancer as a disease has three stages when expressed upon the body.
 - Irritation at the tissue level
 - Induration and growth phase
 - Terminates into ulceration, metastasis and destruction.
- So a combination of all 3 miasms.

Cancer miasm- Sankaran

- Sycotic fixity, build up and growth
- Syphilitic destructive dimension and breakdown.
- So between sycosis and syphillis.

Cancer miasm

What lies deeper??

Carcinosis – Innermost feelings/del

- Del body parts do not belong to her.
- Del poisoned about to be
- Fear attacked, death
- Fears causeless, animals, dark disease, evil, examination, ghost, something terrible will happen.
- Ailments from abuse, long domination
- Del martyrdom of
- Del protection defence has no
- Fear insanity losing reason
- Del superhuman control is under
- Separated world from the she is
- Dreams responsibility

Carcinosin – Innermost feelings

- Prolonged anxiety
- Anxiety conscience of
- Anxiety health about, other person's of, family, environment
- Conscienciousness of trifles
- Oversensitive music, noise, reprimands, external impressions
- Sympathetic compassionate
- Love animals nature for

Expressions Cancer

- Anger vexation grief with silent
- Anger vexation suppressed
- Grief cry cannot, prolonged and unresolved
- Anxiety suicidal with
- Anxiety sleeplessness with
- Confidence want of self
- Dancing desire for
- Fastidiousness
- Homesickness, nostalgic
- Impressionable

Expressions Carcinosis

- Despair recovery
- Disobedience
- Destructiveness
- Mildness masking violence
- Obstinate, headstrong
- Responsibility strong in children
- Precocity
- Rest cannot when things are not in proper place
- Suppression of natural inclination, desires

Conium feelings and del

Del animals of

Del dead corpse mutilated

Del entering someone, door night

Del grief weighed upon him

Del phantoms

Del insane that she will become

Del injury will receive

Del persecuted pursued

Del thieves, robbers

Conium expressions

- Abusive insulting to someone on the road
- Despair
- Destructive
- Hysteria
- Sensitive oversensitive to all impressions eg noise penetrating, odour, pain
- Ailments from celibacy, sexual suppression
- Amativeness, lascivious, lewdness
- Ambition much fame for,
- Haughty likes to wear his best clothes

Conium expressions

- Indifference apathy, conscience to dictates of
- Indolence aversion
- Memory weakness loss of
- Morose sulky
- Prostration of mind, brain fag
- Quiet disposition
- Sadness despondency, mild persons in, injury to head from, sexual suppression after
- Sits still silent
- Slowness
- Sympathy compassion desire for indolence with
- Unconsciousness coma

Cancer theme from provings

- Extreme sensitivity to external impressions to start with subjected to long continues attacks, injuries,insults and reprimands, abuse, terrible anxieties, control and domination.
- React by conscientiousness, responsibility, fastidiousness on one hand and extreme suppression, mildness, inertia, lack of defence, self sacrifice and self destruction on the other.

Cancer theme - Sankaran

- Expected to fulfil a great demand(almost hopeless like syphilis) which he is incapable of doing(sycosis)
- Theme of superhuman effort in order to survive
- Stretching oneself beyond the limits of his capacity in order to survive.
- Failure is death and destruction
- Continuous and prolonged struggle which seems to have no end

Cancer Personality - Sankaran

- Demanding parents, high expectations, moralising, ethical, demanding quality and achievements.
- Tries hard to please others, high level of performance.
- Model of perfection, one with whom it is difficult to find faults.
- No rest or freedom from tension
- Today's competitive world cancer is showing in greater frequency, a sign of desperate struggle to survive.

Disease Cancer and its themes

The overwhelming high level of cell division, need for control and order in order to survive.

Feeling of chaos and disorder and need to restore order

Feeling of losing control and need for self control

Little chance of success but some hope(just before syphilis)

Dr Ramkrishnan thoughts on cancer as a disease

- Is the organism disturbing the cell? OR The cell disturbing the organism?
- Why do the benign cells become malignant?
- Why do the formative forces of the human organism lose control over the cell life in a particular part of the physical body?
- Modern medicine research -Cancer problem is a Cell problem. It regards the cell as the foundation of all and the human as merely the formation of cells.

Dr RamKrishnan – Carcinogens

- The causes(carcinogens) can be within and without
- External Causes – influences from environment through food, chemical exposure, radiation etc
- Internal Causes – hidden connected with course of man's destiny, stress, emotional disturbances in childhood etc.
- Carcinogens can enter through 6 routes
- 5 senses – eyes, ears, nose, tongue, skin.
- 6th route is Mind intellect and ego- Stress.
- Galon said in 200Ad Melancholia predisposes to cancer.
- Breast cancer – 450 cases out to 1300 cases in my experience caused by domestic disharmony eg familial, between partners. Here there was no family history of cancer as a predisposing genetic factor.

Dr Ramkrishnan protocol on cancer prophylaxis

- Prevention by **carcinosis** 200 C if there is a strong family history of cancer.
- Split dose 3 pills 4 times a day, once a month for 3 months.(same protocol used with Tuberculinum 200C for prevention of tuberculosis in India).
- And then follow on with a constitutional remedy and with regular follow up.
