

Syphilitic Miasm

- Active
 - Generals
 - Particulars
- Latent

© 2008 Shilpa Bhouraskar

Latent Syphilis

- Mentally dull and stupid. Slow reaction and degeneration
- < Night, Oppression, anxiety, restlessness at night.
- Violence. Easily destroys himself or others coldbloodedly. All criminals, fascists, anarchists and exploiters have a syphilitic base.
- Stubborn, Sullen and morose.
- Fixed ideas not eradicated by any amount of explanation or talk.
- Depressed melancholic, keeps to himself. Likes to be alone, desire to escape. Self condemnation or Suddenly commit suicide.
- Degeneration of morals, dishonesty.

Dr Vijaykar's concepts of syphilis

- Destructive defense response of any cell to injury
- A do or die attitude of the body in despair to save the damaged part.
- Out of control and imbalance in homoeostasis.
- The destruction or degeneration occurs either by
 - Necrosis
 - Apoptosis/ Apolysis

© 2008 Shilpa Bhouraskar

Necrosis

- Destructive pathologies -
 - Disfigurements, gangrene, distortion of parts
 - Ulcerations, Lacerations, Sensitivity out of proportion.
 - Deep bleeding cracks, Bleeding ulcers, Distorted healing wounds.
 - Easy septicaemias

© 2008 Shilpa Bhouraskar

Apolysis

- Body undergoes programmed destruction of self which is internally controlled.
 - Autoimmune diseases eg Rheumatoid arthritis, motor immune diseases, autoimmune thyroiditis (Hashimoto's), Parkinson's disease etc

© 2008 Shilpa Bhouraskar

Physical structure

- Distorted face, repulsive. Eg the nose and eyes can be extra sharp, piercing look.

© 2008 Shilpa Bhouraskar

Syphilitic mentals

- Expression not balanced and out of control. Hasty speech, jerky speech and awkward behaviour.
- Will- Out of control and reaction is unpredictable.
- Intellect – destruction and perversion. Underactive and dulled. Or intelligent but not used in right direction

© 2008 Shilpa Bhouraskar

Syphilitic mentals

- Morals – Sense of right and wrong abolished. Cruelty, criminals who kill without remorse, shameless behaviour (Sycosis has guilt and fears criticism) Syphilis has none.
- Emotions- Out of control or rather controlled by emotions to death and destruction

© 2008 Shilpa Bhouraskar

Levels of suppression

- Level 1- Ulcers (uneven edges), cracks, corneal ulcers, denuded mm, ear drum rupture.
- Level 2 -Destruction of nasal septum, Bloody catarrh, Ulcerative colitis, Crohns disease, Intussusception, Ulcers.
- Level 3 -Rheumatic arthritis, Osteoarthritis, Destruction/Paralysis Vocal cords, Psoriasis.
- Level 4 – Varicose ulcers, Prolapse valve, Heart infarction, Hodgkins disease, CRF, Nephrotic syndrome, Emphysema, Interstitial fibrosis, Cavitation of lungs(TB).
- Level 5 -Leucoderma
- Level 6 – Disemminated sclerosis, Parkinson's disease.
- Level 7 – Syphilitic trait
